

**THE LEADING SOLUTION TO
MINIMIZE MOTOR SHAFT VOLTAGE,
BEARING FAILURE, AND
MOTOR DOWNTIME.**

COMPETITIVE ADVANTAGE

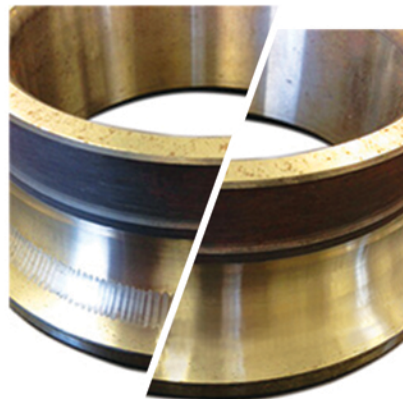

- Most effective in minimizing shaft voltage and damaging currents
- Fits motor shaft diameters up to 4"
- The only UL Certified Bearing protector on the market
- Easy to Install & Maintain

**HELWIG CARBON IS THE PLANET'S BEST CHOICE
FOR DEPENDABLE BEARING PROTECTION.**

Shaft Voltage with Fiber Ring

Shaft Voltage with BPK-4

These results illustrate that a Helwig BPK effectively insures against the risk of bearing damage by reducing induced shaft voltage significantly, therefore improving the life of the motor. Peak-to-peak voltage for Helwig's solution is more than 5 times lower than the fiber ring.
