PUMP MOTORS

WATER SYSTEMS

 **RegalRexnord**[™]

The **Regal Rexnord** motor brands are essential to commercial, residential, and industrial pumps. We create a better tomorrow by energy-efficiently converting power into motion™. Our team of experts will help you find the right solution for your pump application.

GENERAL PURPOSE MOTORS

FEATURES

- 56C and 56J frames, 1/3 – 3HP
- Totally enclosed and drip proof
- Double sealed ball bearings, mechanically locked on drive-end
- Capacitor start design for high starting torque and efficiency
- Automatic and manual reset thermal protector
- Carbon and stainless steel shafts
- Single and three phase
- Continuous duty
- UL* recognized, CSA* certified

JET PUMP MOTORS

FEATURES

- 56C and 56J frames, 1/3 – 3HP
- Totally enclosed and drip proof
- Double sealed ball bearings, mechanically locked on drive-end
- Capacitor start design for high starting torque and efficiency
- Automatic reset thermal protector
- Carbon and stainless steel shafts
- Single and three phase
- Continuous duty
- UL recognized, CSA, CE* certified
- Single and two compartment
- C-face footed and footless, square flange
- 1800 & 3600 RPM

WASHDOWN PUMP MOTORS

FEATURES

- 56J, 56C, 143T threaded shaft for jet motors
- Single-phase electronic solid-state switch
- Inverter duty
- UL recognized, CSA, CE certified
- 1/3-3HP
- Four condensation drains with moisture-resistant shaft system
- Nitrile Buna-N* gaskets and Viton* shaft seals
- 300 & 303 stainless designs
- IP55 Enclosure
- USDA – approved white epoxy paint
- White Duck Washguard™ motor

CLOSE COUPLED PUMP MOTORS

FEATURES

- NEMA®* 143JM/JMV/JP, 1/3 - 3 HP
- Totally enclosed and drip proof
- Double sealed ball bearings, mechanically locked on drive-end
- Capacitor start design for high starting torque and efficiency
- Automatic and manual reset thermal protector
- Carbon and stainless steel shafts
- Single and three phase, dual rated voltage
- Continuous duty
- UL* recognized, CSA* certified
- Inverter duty (variable and constant torque)
- IP55
- Hazardous duty, division 2
- 200, 230, 460, 575V
- 1800 & 3600 RPM
- C-face footed and footless, square flange

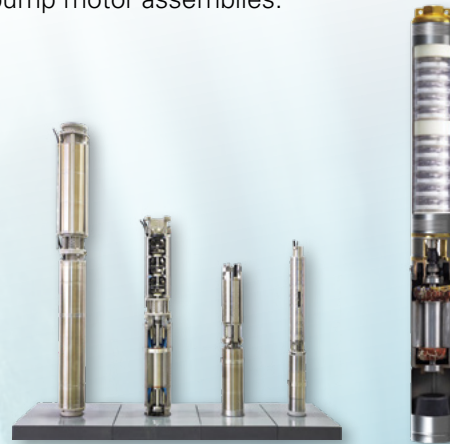

VARIABLE FREQUENCY DRIVES (VFDs)

Regal Rexnord's family of VFDs enable constant pressure control, motor protection, eliminates water hammering, and prolongs the life of motor. Ranges from 1/3 - 150HP, 115, 230, 460V, single and 3 phase, IP20 and IP65 Nema 4X, digital display, keypad, network communications.

CUSTOM MOTORS

Rotor, stators and partial motors to fit your custom pump motor assemblies.

COMING SOON

Integrated VFD Motor

WHY CHOOSE REGAL REXNORD?

Three Trusted Brands • Global manufacturing Footprint

We Create A Better Tomorrow By Energy-Efficiently Converting Power Into Motion™.

Regal Rexnord story....

Regal Rexnord Corporation is a global leader in the engineering and manufacturing of industrial powertrain solutions, power transmission components, electric motors and electronic controls, air moving products and specialty electrical components and systems, serving customers around the world. Through longstanding technology leadership and an intentional focus on producing more energy-efficient products and systems, Regal Rexnord helps create a better tomorrow – for its customers and for the planet.

Regal Rexnord is comprised of four operating segments: Motion Control Solutions, Climate Solutions, Commercial Systems and Industrial Systems. Regal Rexnord is headquartered in Beloit, Wisconsin and has manufacturing, sales, and service facilities worldwide.
