

For motor or electrical item requiring starting from distance of up to 320 foot (distance may vary depending on interferences with walls of equipment). The CSH Remote Link is a Non fused manual "ON/OFF" switch as well as a remotely capable switching device for equipment like: Electric motors, Pumps, Lights and other electrical items.

RL7.5

- Max 7.5 HP
- Single Phase
- Water Resistant NEMA Enclosure
- Max amperage rating 30 (220/240V) single phase

- **WITH STANDARD HOOKUP** (no adapters to 120v)
Voltage input/output: 220/240V single phase
- **WITH 120V OUTPUT ADAPTER**
(Standard adapters available online or in hardware stores)
Voltage input: 220/240V single phase
Voltage output: 120V (MAX 20 amps) single phase
- **WITH 120V INPUT AND OUTPUT ADAPTER**
Voltage input: 120V single phase
Voltage output: 120V (MAX 20 AMPS) single phase
