

KASCO DE-ICERS

The Leader In Ice Control Engineering!

10.08.14

Perfect for preventing costly ice damage due to jacking/lifting, ice expansion, and winter-kill conditions.

- Longer-life top and bottom ball bearings.
- Environmentally friendly oil-filled motor.
- Hard-face internal mechanical seal and external lip seal for protection against leaks.
- Highly efficient, lower power consumption than competitive equipment.
- Superior dependability in salt-water or other corrosive environments.
- External metal motor, float and hardware components are stainless steel.
- Kasco De-Icers can be suspended by ropes, mounted on an optional Universal Dock Mount, or attached to an optional Horizontal Float.
- Optional De-Icer Controllers (C-10 and C-20) can be added to help control electric bills.
- 25 or 50 feet cord lengths available.
- All units include 20' suspension ropes.

Made with pride in the USA!

MODEL NUMBER	HP	VOLTS	RUNNING AMPS	THRUST (lbs.)	SHIPPING WEIGHT (lbs.)	TYPICAL OPEN AREA*
1812D035	---	12	22.0	18	20	up to 30' diameter circle
2400D	1/2	120	5.0	26	25	up to 50' diameter circle
